fight racism

ALTHOUGH THIS PAPER acknowledges the existence of racial differences, and is therefore proud to describe itself as "ractalist", we are opposed to racism. As racialists we base our world view and policies on a positive love of our own people, culture and traditions, and respect the right of other races and nations to do the same. We reject racist theories which advocate hatred of others as "inferior", when in fact they are merely different.

We also reject the race hatred of capitalist/communist materialism, which manifests itself as "multi-racism", and which seeks to destroy the unique qualities of each race by encouraging race-mixing. We believe that those working to replace the separate races of mankind with a rootless, coffee-coloured human anthep as the real "race haters".

POLITICAL ACTION

This evil process is now well advanced in Britain and can only be opposed by political action designed to replace the capitalist system and the corrupt politicians who imported millions of coloured immigrants into our land. These people were brought here to be exploited as cheap labour and are victims of the System just as much as we are.

We therefore seek to turn hatred of immigrants into the political will needed to bring an end to the failed multi-racial experiment by a humane policy of financially assisted repatriation.

We urge every reader to find out more about this vital issue. Important further reading on the subject will be found in **Nationalism Today** issue 39, and **NFN** issues 79, 80, 82, 86 and 87.

The NF opposes both immigration and race hate. We urge you to do the same.

NEW PRICE NEW SIZE

FROM THIS ISSUE, **NF News** will usually be 10 pages long. The addition of the two page centre slip sheet as a regular feature gives **NFN** the space to begin to do justice to the vital issues of our age. With the steady increase in the frequency of publication since the start of the year, it means that the National Front is at last developing its own agitational press. The political and organizational advantages of this are enormous.

But such advances are only possible through sacrifice. Our editorial and production staff have committed themselves gladly to a far greater workload in order to build **NF News**. But paper costs have soared in recent months and the extra sheet obviously adds to the cost. So we have to ask you, the reader, to make a little sacrifice of your own and accept the price increase to 30p per copy.

This increase will do more than give you two extra pages. It has also allowed us to give bigger bulk order reductions to local sales units, who will therefore make more money to help them in their own local campaigns. And it will help raise funds to finance improvements in the typesetting of **NFN**, which will be our next step forward.

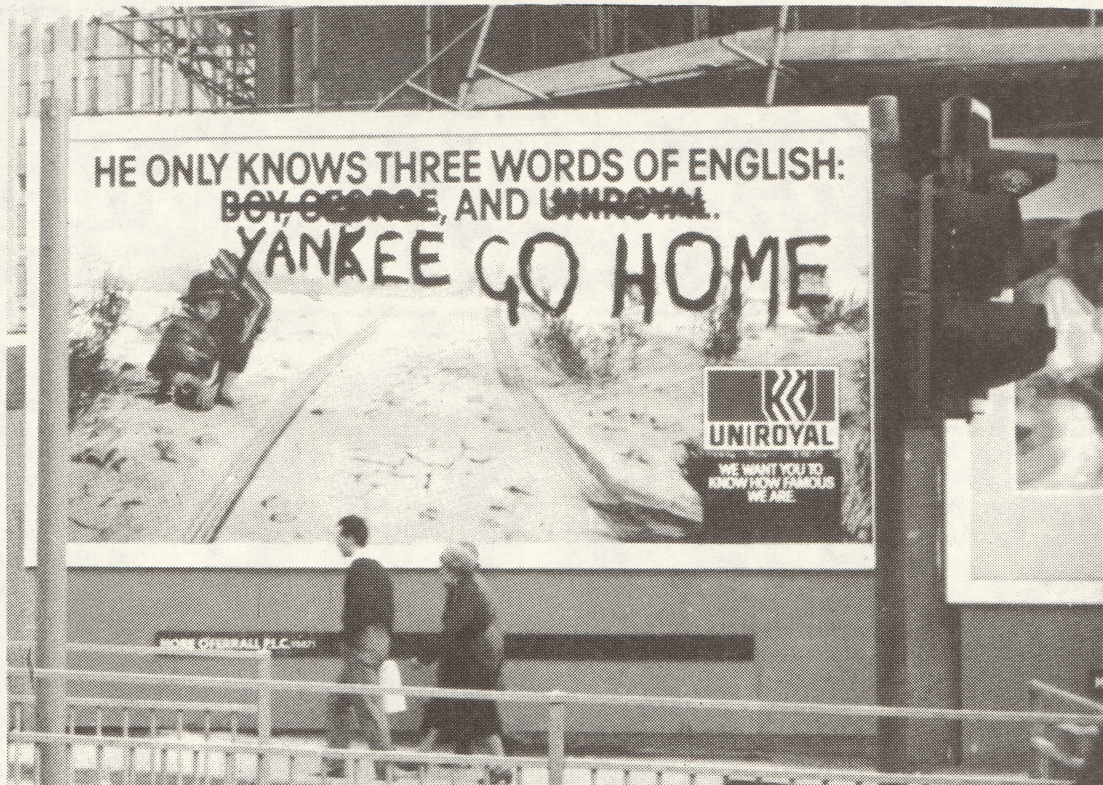

The long work of building the Nationalist alternative to the capitalist media is now really under way. There's a long way to go, but we're getting there.

IMPORTANT NOTICE; Whenever possible hand correspondence for the NF, NF News or Bookshops to your local NF contact, so that it can be delivered through the movement's internal postal system. This is very important when dealing with subscriptions, orders and membership payments.

If you do have to use the Post Office network, ALWAYS use RECORDED DELIVERY and keep your receipt safely.

While the constant interference with our post is irritating, this attempt to disrupt the NF, is a tribute to its growing effectiveness. So rather than moaning about it, all NF members and supporters must accept the hard work and discipline needed to make our internal communications network an efficient alternative.

IT IS NOW one year since American jet bombers took off from airfields in Britain to unleash fire and death on the sleeping city of Tripoli in Libya.

Hundreds of innocent women and children died in the raid. The bombs intended to kill Col. Gaddafi succeeded instead in killing his baby son.

The reason for the raid was the threat posed to the international capitalist system by Gaddafi's Third Position (Neither Capitalism, Nor Communism) ideology. The excuse was the bombing of a Berlin disco used by members of the U.S. occupation forces in Germany.

It is now clear that Gaddafi had nothing to do with that attack, or indeed with any attack on non-Libyans anywhere in the world. The bombings are either the work of Syrian extremists out of their government's control, or more likely the dirty tricks department of the Israeli secret service, the Mossad. Gaddafi is the innocent victim of a terrorist conspiracy by Western leaders like Reagan and Thatcher (see the *Times* 1/4/87 for more details).

NOT AN ACCIDENT

This is not an accident. American aggression against independent countries all over the world is not just the product of Reagan's senility; it is simply the inevitable result of a disease called imperialism. Elsewhere in this **NFN** educational feature, we look at why it is a disease, and at some of the worst examples of this cancer in the modern world.

What exactly is Imperialism?

IMPERIALISM is the domination of one nation or people by another. It is not just a matter of military occupation, although it often involves it. The rulers of an empire actually try to absorb the subject nation into their own system. To do this they undermine its culture and economic independence, seeking to persuade its people that their own nationhood is less important than being part of the larger grouping which makes up the empire.

Since all peoples have an inbuilt preference for rule by their own kind, such a policy can only be maintained by oppression and by cultural or even national genocide.

Imperialism is even a bad thing for the nation which controls the empire. The most idealistic sections of its populations are corrupted and turned against their own people by a guilt complex about exploiting others. "Do-gooders" direct their energies

towards the subject peoples, neglecting the poverty to be found in the backstreets of their own cities.

RACE MIXING

And imperialism inevitably leads to the mixing of the different populations and to subject peoples being brought back to the "mother country" as cheap labour. When they are of different races, the result is the sort of disastrous immigration which is destroying the identity of our own country.

The two biggest empires in the world today are the product of the two evil materialist twins - capitalism and communism. Though they operate in slightly different ways, they are both a menace to the peace and freedom of every race and nation - particularly the peoples of Europe.

DEATH TO IMPERIALISM

USSR

USA

AMERICAN IMPERIALISM is, in Europe at least, rather more subtle than the Soviet sort. Our culture is undermined not by compulsory Russian lessons in school, but by the sick Hollywood values of "Dynasty" and "Dallas". Our ancient cities are smashed not by Soviet tanks, but by inhuman New York style skyscrapers. Our national identity is destroyed not by mass deportation to Siberian labour camps, but by mass immigration and forced multi-racism.

Many third world countries which have tried to break free of the U.S. dollar dictatorship have seen the other face of the Yankee empire. From Vietnam to Palestine, from Libya to central America, countless thousands of innocent people have been blown to pieces to make the world safe for Coca-Cola and General Motors.

SEPARATISTS

Even in the U.S.A. itself, White, Black and Hispanic separatists are murdered and imprisoned in the drive of American capitalists and their Zionist allies to create a rootless, coffee coloured world of mindless consumers. For the American empire, profit is God, and anything which might get in the way must be destroyed.

This is what makes the U.S. system the deadliest enemy of every race, nation, religion and traditional culture in the world. It is what makes it the most dangerous empire of all time.

Viet Cong being beaten by US 1st Cavalry.

THE SOVIET UNION is the most brutal empire of all time. It started in November 1917, when about one thousand Bolsheviks carried out a coup against the moderate socialist government which had taken over Russia after the abdication of the Tsar.

Since then more than 130 MILLION have been murdered in states set up as part of the Communist empire. Here are just a few of the worst examples.

* In just 7 years, Lenin was responsible for 20 million corpses, including millions of peasant farmers starved to death in an artificially created famine.

* Trotsky organized the murder of millions of innocent people during the Russian civil war. This "friend of the working class" led the massacre of

Mujahideen pictured on a captured Soviet tank.

thousands of workers in the city of Kronstadt, simply because they demanded an end to Marxist dictatorship.

* Stalin butchered over 40 million Russians before going on to enslave the whole of Eastern Europe with the help of American military supplies.

* Mao was responsible for slaughter of 70 million Chinese.

As well as the oppression of Muslim nations such as the Afghans, the atheistic Soviet empire now keeps more than a dozen European nations in chains. Red Army tanks impose slavery on 400 million Europeans from beyond the Ural mountains to the heart of Germany and the shores of the Mediterranean.

Workers, peasants and students in the Ukraine; East Germany; Hungary; Czechoslovakia, and Poland, have all risen against their oppressors. All have been crushed without mercy. Only the united opposition of all the peoples of Europe can free the Captive Nations, and the Russians themselves, from the tyranny which grinds them into the dust.

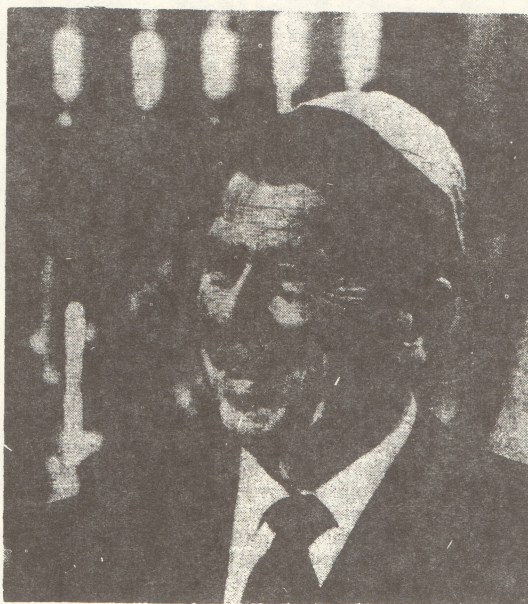

ZIONISM

MOST EMPIRES involve large numbers of troops occupying vast areas of the world. But there is one which has small armed forces of its own, but which menaces the entire world.

This is the Zionist empire, an iceberg of hidden power of which the bandit state of Israel is only the cruel tip.

Zionism demands the right to put the interests of Jews first, but uses subversion, bribery and murder to deny other peoples the same right. The tentacles of Zionist power grip the mass media, economies and political life of the Western world, particularly the USA.

A future issue of **NFN** will show how the Zionists use this power to buy politicians like Reagan and dominate the world.

Racial Conflict or Sanity?

IN THE previous installment of this series, it was asserted that racialism - the desire of a people to cling to the security and traditions of their own kind - was a vital and natural part of any healthy society. Such racialism was found to be a response that people of all races identified with, and was not the preserve of Europeans alone as the Zionist media likes to suggest.

Now, if racialism corresponds to natural order, it follows that multi-racialism is equivalent to chronic disorder. It is a corrosive disease that can only have the most damaging consequences for all races and cultures, for such a disease if it is not cured inexorably leads to death. In this case the death of the rich diversity of mankind so marvellously adapted to its breathtaking complexity. To be replaced by what? An appalling racial confusion lacking stability, continuity, identity, tradition and direction. A thought to horrible to ponder.

Clearly, many parts of the modern world are painfully enduring the agony of multi-racialism, yet the powers-that-be seem either unwilling or unable to take those actions necessary to racial survival. Fear of being branded as "a mindless bigot", fear of what "the neighbours will think", fear of the powerful multi-racialist lobby which feeds upon massive media coverage and enormous financial resources - these are but a few of the obstacles preventing a return to sanity on the matter of race, to a return to natural order.

DO NOT WORK

It must surely be obvious to every thinking citizen that multi-racial societies just do not work. They have not done so in the past, and they will not in the future. We have only to consider Britain, America, India and Sri Lanka to see the truth of the matter. Rapes, rioting, murder, robbery, misery and bloodshed - these are the everyday realities of multi-racialism which any number of Race Relations Acts cannot eliminate. Only the imbecile or the man who loathes the very fact of race can turn his head away from this real world, a world where both the indigenous and immigrants live in anguish, fear and mutual suspicion. What sort of world is this in which to bring up children? What sort of person is it who would deny the young the opportunity to grow up in a secure and stable community founded upon loyalty to one's own kind, whilst respecting the right of others to do their own way?

The only truly practical answer to the disorder of multi-racialism is repatriation, the return of all immigrants to the country of their ethnic origin. In simple terms this means that the Chinese will go to China, the Asians to Asia and the West Indians to the West Indies. And yes, it means that when other countries adopt repatriation, we will welcome back to our shores those sons and daughters of Britain, who have left their natural environment, their true home.

Of course, repatriation will not be an overnight affair, a matter of "putting them on boats" and "sending them back". It will be a highly complex task requiring the efficient use of human and material resources, organizational co-ordination and the exercise of patience. Why? Firstly, because we are dealing with people, people who were brought here as pawns in a game played by capitalists. Secondly, because the NF is committed to building a genuine and lasting peace, not only in this country but also between ourselves and other nations. A well conducted, humane programme of repatriation will not only achieve a mono-racial Britain, it will also win us allies all over the world - in Asia, in Africa, in the Far East. Allies that will know from experience that we are firm, honest and fair, allies that will join our bloc of Third Way nations so as to resist Capitalism, Communism and Zionism. This is not to say that we believe that repatriation will be an easy or pleasant task, for it will involve heartache and suffering, but the difficulties and sorrows encountered will be as nothing compared to the racial violence that has, and will continue to ravage too many societies around the world.

OPPRESSION?

But surely repatriation is an instrument of oppression devised by the White man? This is very far from being the case. It was the visionary Black leader, Marcus Garvey, who founded the "Back to Africa" movement in the USA in the 1920's. It was Garvey who co-operated with White racialists to promote this ideal, arguing that the Black man could only truly be himself in a society run by and for Blacks in accordance with their values and attitudes. It was the misfortune of Mr. Garvey, and indeed of all Blacks, that powerful forces resisted his efforts and called instead for "integration" with White society. "Integration" could only mean second class citizenship for Blacks; it could only mean racial destruction through race-mixing; it could only mean racial conflict and misery for all, Black and White. Fortunately, Garvey's essential message, racial separation and mutual cultural respect, has been taken up again by a forward thinking and intelligent Black man, Mr. Louis Farrakhan of the Nation of Islam. The NF can say, without tongue in cheek, that Mr. Farrakhan is a comrade.

And there are examples of repatriation to be found all over the world: Algerians sent back from France; Turks sent back from West Germany; Koreans sent back from Japan; Indians sent back from numerous African countries; Tamils sent back from Sri Lanka. Races the world over are practising repatriation. Why? Is it because every race and culture is dominated by "mindless bigots"? Or is it because racial separation is the only sane and humane solution to racial conflict?

The fact remains that repatriation is the moral response of the nationalist and the realist, and it is a policy that Britain must adopt sooner or later. Let's hope that it will be sooner both for Britons and for immigrants because it will avoid unnecessary pain and suffering. Black and White unite, you have only the injustice and exploitation of multi-racialism to lose.
